MANEUVERABLE

- 3 point mounted to operate in close quarters

MULTIPLE BENEFITS

- Improved Palatability, less waste
- Feed silage bales directly into bunk or fenceline feeders Pre-chop material for TMR mixer.
- Improved absorption ability of bedding material, less bedding required
- Clean comfortable beds.
- Easier handling of manure with chopped material

**TUBE-LINE
BALEWRAPPER**

For optimum speed and efficiency patented Tube-Line Wrappers are the answer! Tube-Line Wrappers wrap a continuous row of bales. The airtight application of stretch wrap film retains moisture balance as haylage matures and prevents air infiltration. The shrink wrap also prevents wind damage and accommodates variation in bale size and shape without air gaps.

Long stem silage is better used in the animals digestive system. Feeding high quality haylage from wrapped bales can reduce or eliminate feeding grain while retaining or increasing weight gains or milk production.

Tube-Line wrappers for all round bales or large square bales are available in either manual or fully automatic models.

AG WRAP BALE WRAPPER

"NEW" for 98 the EC04-5 Pull Behind Wrapper For Use On Small Tractors
