Mr. Farney is talking about mixing 11.5% long stem dry hay by ration weight in the **Knicht Reel Auggie 3450**, which he and his sons decided to purchase in September of 1994.

Herbert was born the day Herbert Hoover was elected president

The Farneys previously owned a three-auger Oswalt stationary unit. They state that the "old mixer tended to ball material up, especially in wetter forages, while the Reel Auggie 3450 'fluffs' the ration."

The Farney's herd average is up about 1,000 lbs., and they have a higher protein test as well. They milk 160 Holsteins, and feed a total of 260 head. They like the low power requirement — the 390 cubic foot machine is powered by a John Deere 2030 tractor.

3000 Reel Auggie TMR Mixers
Now available in **seven** sizes with capacities from 147 to 600 cubic feet
