IS THIS SOMETHING I CAN LIVE WITHOUT?

Yes. But it's an excellent way to lower the cost of cooling milk. It reduces milk temperature with water pumped straight out of your well. Mueller® precoolers are available in sizes to work with any system. If lower electric bills would make your life easier, call us and ask for more information on Mueller precoolers.

Call your MUELLER distributor listed below for more information:

POURED SOLID CONCRETE

STORAGE SYSTEM SPECIALISTS

START WITH THE BEST!

POURED CONCRETE WALLS

You get about 40% more concrete for your dollar with a poured, solid concrete basement as compared to a hollow core block basement

A poured solid concrete basement weighs about 50 lbs. more per cubic foot! Far denser. What's more, poured solid concrete walls are monolithic... there are no joints!

This is why laboratory tests show poured, solid concrete basements have many times the flexural and compressive strength to withstand the side and down pressures caused by earth, wind, water and building loads and the material density to resist water penetration

Best of all, thanks to modern and efficient construction techniques, poured, solid concrete basements are competitively priced

Solid Concrete For:

- Manure Pit Walls
- Hog House Walls
- Barnyard Walls
- Chicken House Walls
- Retaining Walls
- House Foundation Walls
- Silage Pit Walls
- Cistern Walls
- Concrete Decks
- Concrete Pit Tops
