

BLACK CREEK FARM

At Black Creek Farm located southwest of Liberty in Lycoming County, David and Gloria Zeafra and their son Paul, are in partnership with this new Dairy of Distinction. They farm 420 acres with oats, corn, and hay as their major crops. The farm lies along the Black Creek, thus the choice of a farm name.

They milk 75 Holsteins that average 19,000 pounds of milk and

have young stock for replacements. In the last two years they have built a manure storage unit and they use contour strips to provide land conservation. They look for good advancement in the dairy business but believe it could be helped along if the Dairy Compact would be ratified by New York State.
