HARDI 300 Gallon Sprayer, 40" Folding Booms	\$1,700
New Holland Blower #25	\$600

Dear M.M. Weaver & Sons:

1997 marked my 5th year custom harvesting. I chopped over 1,500 acres of hay and 1,800 acres of corn.

I appreciate the versatility of the 860 Claas which enabled me to chop 3rd cutting hay on one client's farm in the morning and easily switch to chopping corn on another farm that afternoon. A large fuel capacity, auto-lube system and blade sharpening from the cab conserve energy and time, precious commodities in seasonal work where every minute counts.

The RU 450 is a time-saving asset where the conservation practice of strip farming is necessary due to the hilly terrain. It would have been impossible to cover as many acres as quickly with a conventional cornhead.

The 860 Claas proves to be a totally reliable machine backed up by the efficient service, technical support, and dedicated personnel that you provide.

I thank you for the important part you have in my growing custom harvesting business.

Jerry Spencer
MapleCrest Farm

Maximum Power For Your Success

Get a beast of a deal on a new CLASS Jaguar
See your CLASS dealer for details.

The corn cracker can be changed in 5 minutes to switch from corn to hay. The Jaguar's efficient processing produces quality silage for higher milk production.

The efficient cutting system has a full width metal detector, 30" wide chevron cutting drum and full width 8-blade accelerator.

The operator can safely sharpen the chopping knives and precisely adjust the shearer bar from the driver's seat automatically.

The unique top-to-back cooling system with rotary air screen assures excellent, clean cooling.

Service is easy because compartment covers quickly swing open to provide easy access to the engine and cooling system.
