RAXIL®

The breakthrough seed treatment for small grains that delivers outstanding performance. And unbeatable value.

When you consider performance and price, you'll see why new Raxil flowable fungicide is your best value in seed treatments for small grains.

The unique new chemistry of Raxil helps wheat, barley and oats start healthier and yield better. It provides a new level of protection against smuts, bunts, soilborne *Fusarium* and other diseases. Yet Raxil is priced comparably to older systemic fungicides currently in use, and costs less than other new seed treatments for small grains.

Take advantage of the breakthrough chemistry that's tough on early season diseases and easy on the bottom line. Ask your conditioner or seed supplier for seed treated with Raxil. From the seed treatment leaders at Gustafson.

Gustafson
