

# If I were to build a combine, I'd build one . . . ...with a kinder, gentler grain handling system.

**Your grain doesn't have to take a beating anymore.** With GLEANER's exclusive Natural Flow processing cylinder, your crop never changes direction. Giving you higher grain quality and better returns at the elevator. Our unique transverse mounting system moves your crop in a ribbon-like fashion from the concave through the cage. It's never forced to make hard turns. You also get the cleanest grain with our combine. We have the longest cleaning shoe in the industry, 64" inches to be exact.

And we've added "cleaning shoe" enhancements, like a 4-degree sloped chaffer and sieve, for even finer cleaning and separation. To find out just how gentle we can be, contact your GLEANER dealer. You'll see that only GLEANER is engineered for better returns.
