WARNING, ALL SILO OWNERS

Check your silo now for rotten staves. If you have been using your silo for 10 to 15 years for either corn silage or haylage, it is time to SHOTCRETE

RESURFACES INTERIORS:

- Coats the silo's interior
- Protects feed in storage
- Durable, tough, acid-resistant
- Increase useful life
- Economical

BEFORE The silo's interior with plaster damaged and stave exposed

AFTER The surface is reconditioned, and a new, thick tough surface will protect stored feed.

REPAIRS HOLES:

- Repairs even large holes
- Up to twice the strength of the original stave
- Rapid application
- Durable surface

BEFORE A hole is worn completely through the silo wall

AFTER With the hole repaired by ShotCrete and a new surface applied, the silo is ready for years of use

EXTENDS USEFUL LIFE:

- Support for old foundations
- Special repairs can be made quickly and economically
- Little or no forming needed
- Stronger than the original

BEFORE The bottom part of the stave's are completely worn away

AFTER The ShotCrete System repairs and replaces the missing structure

Nothing Works Like A Silo

Sollenberger Silos Corp.

THINK CONCRETE WHEN PLANNING YOUR FEED STORAGE!!

"HOW WILL YOU BE STORING YOUR VALUABLE FORAGES AND GRAINS IN THE 21ST CENTURY?"

It's not too early to begin planning your storage and feeding systems for the year 2000 and beyond.

As margins narrow, dairymen need to invest in efficiency; this can have as great an influence on PROFIT as milk price changes.

Protect your valuable feeds from the elements... increase the efficiency of your feeds, your animals, and your labor.

ADVANTAGE ... CONCRETE

No used silos, no rebuilt silos, no preowned silos. All New For You...

"This is the kind of silo you need to protect your valuable feed."

For Equipment Sales and Service Call Randy Gayman (717) 262-2908

Remember, if you need a silo...you need to call Bob Francis (717) 262-2907
