- **Future Dates:** Tentative dates for Ag Progress Days 1999 are August 17, 18, and 19

WE'VE ALWAYS BEEN GOOD.

NOW
WE'RE
EVEN
BETTER.

REALLY COOL

given Mueller, when it comes to dairy production, our customers demand quality in their cooling and storage vessels. They know Mueller has always been the company to set this standard worldwide.

Dependable and durable, our milk coolers will provide you with years of trouble-free performance as well as low operating cost, precise temperature control and a wide range of standard features.

"BETTER", to the employees and engineers at Mueller, means constantly improving our already great products. We have added convenience to our tank washer system by attaching the motor to the side of each milk cooler smaller than 3,000 gallons. At the same time, we have added quality by installing the most effective interior washing device in the industry. Mueller's tank washing spray dish is an innovative, one-of-a-kind design which more evenly distributes the cleaning solution throughout the tank's interior. It prevents clogging and offers maintenance-free cleaning. This high performance process will give you extra clean tanks.

For the **BEST** products with the best performance, you can always count on Mueller. For more information see your nearest dealer or call 1-800-MUELLER
