

# Pilot Program To Place Focus

(Continued from Page A30)

ics such as breed and meat cut identification, feed, breed structure correction, and other topics

related to their club project.

A point system to identify the outstanding member will be based on the member placings in compet-

ition. Of that score, 40 percent will come from the skillathon, 40 percent on animal placing, and 20 percent on showmanship.

Last week at the Kutztown Fairgrounds, about 60 4-H'ers and FFA members from Berks and

Lehigh counties of all ages participated in the eight-year-old stockman's contest.

The pilot program will examine  
(Turn to Page A37)

Last week at the Kutztown Fairgrounds, about 60 4-H'ers and FFA members from Berks and Lehigh counties of all ages participated in the eight-year-old stockman's contest.

In Berks County, many exhibitors are learning a great deal about raising heifers, choosing members' farms to raise a project animal, according to Falter. By raising the animal, and participating in practice events such as the stockman's contest at the fair, the 4-H'ers can "beef up" on knowledge of what they're doing, and why. Here, Mike Holcombe, left and Ann Stump inspect the animal.

## RAXIL®

**The breakthrough seed treatment for small grains that delivers outstanding performance. And unbeatable value.**

When you consider performance and price, you'll see why new Raxil flowable fungicide is your best value in seed treatments for small grains.

The unique new chemistry of Raxil helps wheat, barley and oats start healthier and yield better. It provides a new level of protection against smuts, bunts, soilborne *Fusarium* and other diseases. Yet Raxil is priced comparably to older systemic fungicides currently in use, and costs less than other new seed treatments for small grains.

Take advantage of the breakthrough chemistry that's tough on early season diseases and easy on the bottom line. Ask your conditioner or seed supplier for seed treated with Raxil. From the seed treatment leaders at Gustafson.
