BIG BLOWER: QUICKLY CENTER-FILLS TALL SILOS.

The NEW "F62B" moves mountains of material thanks to its 12-inch feed auger. The auger is positioned at a 30-degree angle to the eight-paddle blower fan so crop moves quickly and efficiently right into the blower. The heart of the Model F62B is its 60-inch-diameter blower fan. With a paddle tip speed of 8,460 feet per minute, the "F62B" blows corn silage at a capacity of up to 180 tons per hour and haylage at a capacity of up to 110 tons per hour. Even though the "F62B" has a large-diameter blower fan and high-speed paddles, it's the quietest New Holland blower ever.
