"Best Kept Secret In The Poultry Business"

L.B. WHITE[®] Infraconic Heat Efficiency

By maximizing the conversion of gas to radiant energy, the L.B. White Infraconic gives you more heat for your fuel dollar as well as a broader area of heat output and more consistent temperature at bird level. With more consistent temperatures and a larger 'comfort zone', the infraconic helps your birds grow by keeping them warm, making it easier for them to find feed and water, and keeping the litter drier.

Lightweight and easy to install, the Infraconic is also simple to clean and maintain. And because the Infraconic hangs higher than other brooders, it's easier to work around during production or clean out.

L.B. White Infraconic brooders are available in 17,100 and 34,200 Btuh outputs, as well as your choice of LP or natural gas.

Winter Is Soon Here, Are Your Heaters Ready?

Flexible and economical heat:

- Models to meet different needs, with heat outputs from 20,000 to 325,000 Btuh, plus variable outputs for greater heating efficiency.
- All models are available for use with propane or natural gas
- Compact profiles and indoor or outdoor mounting capability for easy installation and efficient use of space.

Reliable and durable:

- Sentinel System III advanced diagnostic controls monitor all primary heater functions for dependable worry-free operation.
- Sentinel System III diagnostics pinpoint potential heater interruptions quickly and accurately to save time and money.
- High quality components and solid case construction washdowns and years of dependable service in corrosive environments.
