PRO-LIX LIQUID FEED

- In the dairy business, income over feed cost is the name of the game. *Pro-Lix* liquid feed supplements offer dairymen the means to maximize this value while getting the most from their cow's natural abilities
- *Pro-Lix* liquid feed supplements are concentrated sources of just what ordinary feeds lack: protein, energy, vitamins, minerals -- everything animals need for economical milk production and growth.
- For replacement heifers, *Pro-Lix* means faster maturity and assurance that they'll get to the milking herd on time. If you trust your heifers to forage alone, they might not make it. (Bouvatec Is Available)
- For lactating cows, the nitrogen content of *Pro-Lix* means plenty of protein available for milk production and growth.
- Finally, for dry cows, *Pro-Lix* not only helps maintain their health during the dry period it prepares them for the next lactation. The Ca:P ratio in *Pro-Lix* helps control milk fever, while the Vitamin E and selenium aids in clean-up after the birth of a calf.

Best of all, *Pro-Lix* works with all types of pasture grass or forage, as a free-choice supplement, a top-dressing, or a ration mix.

The payoff is healthier animals and economical production, all year round!
