You've Never Seen A Harvest Like This

Introducing The 2300 Series Axial-Flow® Combines.

The three 2300 Series combines are equipped with a high-visibility operator environment so revolutionary, everything else is history.

Wider, amazingly comfortable and designed with convenient cab-forward controls and instrumentation, this cab literally conforms to its occupant. An engineering landmark - Focalized Cab Mounting - minimizes motion for a smooth, steady ride. A multi-function propulsion lever puts most operations right in the palm of your hand. And an all-new right-hand console moves in tandem with your seat.

At the heart of the 2300 Series remains the strength of the Axial-Flow combine - the exclusive, patented rotor. And the recent addition of the Cross Flow™ cleaning fan provides a remarkably uniform, powerful airflow throughout the entire sieve area.

Why not stop by and see the new Case IH 2300 Series for yourself? We'll help you discover a better way of looking at your harvest.
