**HEATING**  
**PURAFIRE**  
The Purafire heater provides a consistent, clean-burning and fuel efficient source of warmth for all types of poultry and swine houses. With near 100% efficiency, it uses less energy to yield greater BTUs for your money. Choose from two models; the C80M variable output (40,000-80,000 BTUH) and the C225 (225,000 BTUH). Each is LP or natural gas compatible and can be mounted inside or outside your confinement house.  
Electronic ignition.  
40-80 BTU #14010103  
Heater \$325.00  
225 BTU #14010101  
Heater \$375.00

**Liquid Opportunities With  
AerWay**

**AerWay makes manure nutrient incorporation faster, easier, and more effective**

**Patented AerWay "shattertines" make it possible**

I chose the AerWay because it puts me in control of my liquid manure management system. This is particularly important as my farm is located next to a large Water Resource Shed. Prior to using the AerWay I had problems with soil compaction, manure run-off, ponding and loss of valuable nutrients. We spread between 3000 - 3500 U.S. Gal per acre. The AerWay helped with the above problems, as well as reducing my tillage, fuel and labour expenses. With less time spent in the field I am able to spend more time with my Hog Operation. The AerWay blends perfectly with my Conservation and Environmental Farm Plan.
