Super Rugged Commercial Grade

WHY CURTIS?

FEATURE 7 (OPTIONAL)
GRILL MOUNTED REMOTE LIFT SWITCH
Allows operation of lift cylinder from front of truck to assist in plow installation

FEATURE 1
HIDE AWAY HYDRAULICS
Our hydraulic cylinders tuck away our power system. No belts and pulleys under the hood and no ugly box on the front of your truck. A 1/4" skid plate and gasketed top cover are also standard features. This system allows superior airflow to radiator and provides instant down pressure with added weight on the cutting edge.

FEATURE 4
FORMED CROSS MEMBERS
Give an exclusive stability unseen in other plows

EXTENDED PUSH FRAME (E)
Clearly the widest push frame on the market. ADVANTAGE superior distribution of force through the plow system and not the vehicle frame.

FEATURE 6
PLATE STEEL A FRAME
This laser cut frame system joins 3 main members for a raw strength unequalled by the competitor's angle iron frames.

FEATURE 3
FOUR PIN PIVOT FRAME
Spreads weight evenly across frame and adds support to lower section of plow.

FEATURE 5
ATTACK ANGLE
Our modern designed moldboard features an 18 degree contact angle for a superior glide trip in most snow conditions.

Compared to the rest...

| Curtis Feature # | Description | Fisher | Meyer | Western | Bass | Snow way |
|------------------|----------------------------------|--------|-------|---------|------|----------|
| 1 | Hide away Hydraulics | | | | | |
| 2 | Extended Push Frame | | | | | |
| 3 | Four Pin Pivot Frame | | | | | |
| 4 | Formed Cross Members | | | | | |
| 5 | Attack Angle | | | | | |
| 6 | Plate Steel A Frame | | | | | |
| 7 | Grill Mounted Lift Switch Option | | | | | |
