**IS YOUR SOMATIC  
 CELL COUNT  
 WHERE YOU WANT  
 IT TO BE?**  
 Does your milking system meet the standards of the  
 National Mastitis Council?  
 We at **Franklin D. Hess Ent.** are one of a few dealerships that offer a system  
 analysis and routine scheduled maintenance in accordance with the standards  
 set by the National Mastitis Council.  
 A **System Analysis** consists of testing the vacuum under operating conditions  
 which allows us to set an accurate teat end vacuum. This analysis also checks  
 the pulsation system for proper milk/rest ratio along with stray voltage.  
 A **Scheduled Maintenance** consists of a system analysis and a thorough  
 cleaning of the equipment components vital to the milking system. This  
 includes replacement of damaged and worn parts.  
 To set up either of these services contact  
**Franklin D. Hess Ent. at (717) 925-6939.**
