Have you tried toasted grains?
 Consider these advantages over traditional roasting methods
 ♦ Consistent by-pass proteins and low moisture levels
 ♦ Improved energy density of your rations.
 ♦ Excellent quality control
 ♦ Exchange programs with feed mills
 ♦ Economical storage, rolling and grinding available
 ♦ We also buy corn and soybeans

WE U.P.S. Daily

Announcing New Products for Dairy, Swine & Poultry Producers.
 With the addition of our new soybean processing facility, we now offer these products to meet your nutritional needs. Manufacturing these products ourselves allows us to utilize locally grown soybeans and support our local agricultural community!
GOLDEN PRO 46 XP
 This natural, mechanically extruded and expelled soybean product is experiencing great acceptance with local dairy-men. A course golden colored meal with a 6% fat content; Golden Pro 46 XP is extremely palatable. Golden Pro 46 XP is a natural way to bring the value of high by-pass protein into diets that require a lower fat level.
CRUDE SOYBEAN OIL
 A product of Keystone's expelling process, this oil can be used in a wide variety of on farm applications. A natural alternative to animals fats, this oil provides needed energy in various rations.
GOLDEN MEAL 40
 An 18 percent fat content along with a 40 percent crude protein makes this mechanically extruded meal product a valuable component in a variety of rations. Full fat content gives you a high level of digestible energy, while high temperature extruding ruptures the oil cells for better nutritional absorbtions.
 To make these products available, and to help you utilize your home raised soybeans, Keystone Mills announces its
Soybean Exchange Program
 As manufacturers and distributors of Golden Pro 46 XP and Golden Meal 40, we are anxious for you to try our products. We are offering a soybean exchange program featuring these quality nutritional products.
