Low-boom design for 360° visibility

Rear-mounted engine provides outstanding service access

Easy-to-use "loader pattern" controls on the LM430 combine boom raise/lower and bucket curl/dump functions on a single joystick making it ideal for bucket work

Four-wheel steer capability gives New Holland telehandlers outstanding maneuverability and versatility  
**Steering models** include front-wheel steer, crab steer and circle steer on all units  
**Auxiliary boom hydraulics are standard** on both models  
Optional hydraulic circuit is also available
