Leola, PA 17540 Phone: (717) 656-2321

Located: 4 miles West of New Holland on Rt. 23, 1 1/2 miles Northeast of Leola on the No. Groffdale Rd., 1 mile on the right, opposite Groffdale Mennonite Church.

Meeting all your harvesting needs!

The CLAAS® Quadrant 1200 square baler—The new standard equipment for commercial operators

CLAAS doesn't have to sell a commercial operator on the advantages he gets from large, densely-packed square bales. Yes, the Quadrant 1200 delivers the density commercial operators want. Yes, its bales inhibit spoilage by keeping the air out. Yes, they preserve quality because they minimize nutrient loss. The 1200 also offers the high production capacities you demand. Its 4 ft x 2-1/4 ft x up to 8 ft long bales effectively increase storage space and dramatically increase transport capacities—all at a high productivity rate. And you know what this means to your bottom line. The Quadrant makes easy work of dry hay, haylage and silage crops—whatever you've got. And it bales as much of it as you've got. CLAAS's shaft-driven knotters have earned a worldwide reputation for reliability and low maintenance. Other notable features are its 3-stage pre-chamber,

78" wide pickup, powerful transmission, heavy-duty worm gear, 1000rpm pto, hydraulic density control, capacity for up to 24 balls of sisal or plastic twine, and of course 6 dependable CLAAS shaft-driven knotters. Production capacity. Convenient handling and storage. Economical transport. Density and quality. A better bottom line. For more information about the Quadrant and how it can meet your commercial needs, contact the CLAAS dealer listed below. Incidentally, CLAAS quality is also available in a smaller Quadrant model designed for dairy operators.

Discover CLAAS
 THE HARVESTING SPECIALIST

Hurry into CLAAS® before all the JAGUARS have escaped. See your CLAAS dealer for details and get the quality and performance you've come to expect from the world's leading producer of self-propelled forage harvesters. Then Unleash The Beast.

The corn cracker can be changed in just 5 minutes to switch from corn to hay. The Jaguar's efficient processing produces quality silage for higher milk or beef production. The operator can safely sharpen the chopping knives and precisely adjust the shearbar from the driver's seat automatically. Service is no beastly chore because compartment covers quickly swing open to provide easy access to the engine and cooling system. The Jaguar's unique top-to-back cooling system with rotary air screen assures excellent, clean cooling. The Beast's efficient cutting system has a full width metal detector, 30" wide chevron cutting drum and full width 8-blade accelerator.
