- ✓ Sound System
- ✓ Turning Radius
- ✓ Front Dual Wheels
- ✓ Visibility
- ✓ Hitch Lift Capacity

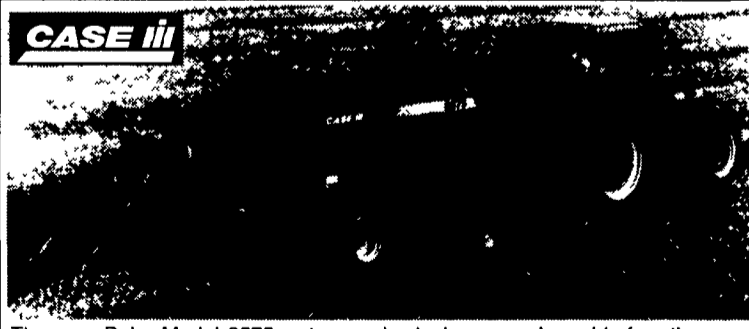

The Shortest Turning Large Tractor You Can Own Today! Simple, User-Friendly Operation.

Industry Leading Turning Radius

The revolutionary chassis of the MX Series Magnum improves your overall performance and productivity. In fact, the innovative Surround frame allows for the tightest turning radius in the industry, even with front duals!

Thanks to axle improvements, engine placement and a sleek hood design, the MX Series Magnum can easily turn into 12 30-inch rows with all row crop tire configurations on true 60-inch tread settings.

The new, single-piece, sculpted, cast iron Surround frame is the key to the enhanced capabilities and performance of these tractors. It enables the MX Series Magnum to offer the first factory front duals, dramatically improving both traction and flotation. By balancing the chassis, we've significantly reduced the amount of front ballast required. And the frame easily accommodates mounted chemical tanks or loaders, allowing you to perform multiple applications.

This new Baler Model 8575 just arrived, which we purchased before the price increase and we will pass the savings on to you! 1000 lb dry bale weight, capable for high moisture baling, 31 5"x34 4" chamber with adjustable bale length up to 98", automatic density control, center lube system, roller bale chute

The 180 PTO Horsepower (134 kW) 8930 MAGNUM tractor Built tough to thrive in one of the world's most demanding environments. Your farm.
• Rugged 8 3L engine with increased horsepower and torque response handles your toughest applications
• Durable, full powershift transmission provides effortless shifting under any condition
• New end-of-row function and slip limit control let you complete work faster and be more productive
• 23% more hydraulic flow at the remotes for more responsive implementation control

New Case IH 8545 100 Stroke Per Min. CENTER-LINE DESIGN
Saves More Leaves Which Means More Milk In The Tank

The benefits of the Case International center-line rectangular baler for a smaller operation are many. Narrow transport width. Easy in-field maneuverability. Gentle handling of hay. Uniform bale shape. And, a budget-minded price.

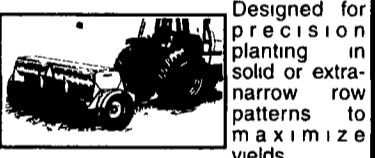

You'll appreciate it with the first bale you make. A wide, low-profile pickup and center-line feeding mean more leaves end up in the bale, not on the ground.

And, if that's not enough, there are a number of options available. A hydraulic pickup lift, flotation tires, hydraulic density control, wagon hitch and a choice of bale chutes or hydraulic bale thrower with electric controls.

Stop in and find out more about the Case International rectangular baler.
