**PRO-LIX**  
 LIQUID FEED

In the dairy business, income over feed cost is the name of the game. *Pro-Lix* liquid feed supplements offer dairymen the means to maximize this value while getting the most from their cow's natural abilities.

*Pro-Lix* liquid feed supplements are concentrated sources of just what ordinary feeds lack: protein, energy, vitamins, minerals -- everything animals need for economical milk production and growth.

For replacement heifers, *Pro-Lix* means faster maturity and assurance that they'll get to the milking herd on time. If you trust your heifers to forage alone, they might not make it. (Bouvatec is Available)

For lactating cows, the nitrogen content of *Pro-Lix* means plenty of protein available for milk production and growth.

Finally, for dry cows, *Pro-Lix* not only helps maintain their health during the dry period, it prepares them for the next lactation. The Ca:P ratio in *Pro-Lix* helps control milk fever, while the Vitamin E and selenium aids in clean-up after the birth of a calf.

Best of all, *Pro-Lix* works with all types of pasture grass or forage as a free-choice supplement, a top-dressing, or a ration mix.

The payoff is healthier animals and economical production, all year round!
