New Holland round bale wrappers are the low-cost alternative to traditional silage storage—they seal your silage bales in "mini silos." You can harvest silage during peak feed quality, store it with greater flexibility, and feed it more efficiently with less waste.

Choose from two models:

- Model B27P is an economic utility wrapper for medium-volume silage producers
- Model B37P is ideal for custom harvesters or operations wrapping large volumes of bales

Both offer a side-mounted lifting arm, three-belt turntable, two large side-support rollers, and cable controls. The B37P is available with computer controls
