

NAAB To Hold Convention

ST. LOUIS, Mo. — The 53rd Annual Convention of the National Association of Animal Breeders (NAAB) will be held July 30-31, in St. Louis, Missouri. The headquarters hotel will be the recently renovated downtown Hyatt Regency situated in the historic Union Station complex. The complex contains retail shops, restaurants, entertainment and a one-acre lake.

Friday evening's Welcome Reception at Busch Stadium will kick off the convention. Food and drink will be served in the "Batter's Eye Club" where attendees will have a unique view of the Cardinals (and "Big Mac") play the Colorado Rockies inside elegant surroundings and outside in cushioned seats.

Saturday morning will feature an informative educational session. Saturday afternoon NAAB will hold its General Business Session which will include the Call to Order. Call to the meeting, and the reading of any proposed resolutions. Chairman of the Nominating Committee, will report on candidates for the NAAB Board of Directors, and NAAB voting delegates will elect one director to fill the one position being vacated by Richard Chichester who has completed two full three-year terms.

NAAB Chairman of the Board Dick Chichester will give his "Chairman's Address" and delegates will hear from Dr. Donald Monke, Select Sires, Chairman of Certified Semen Services. President Gordon A. Doak, Ph.D., will give his "President's Address," and delegates will review the six-month finances of the Association and act on any resolution brought before the Convention.

The NAAB Convention will conclude Saturday evening with a reception, banquet and awards program. AI technicians who have serviced over 100,000 cows, as well as industry sales people who have sold over 500,000 units of semen, will be recognized with a

plaque presentation ceremony. the Research Award.

For convention registration information contact Mary Derby, NAAB, P.O. Box 1033, Columbia, MO 65205, Tel.: 573/445-4406 or Fax: 573/446-2279.

Maximize Milk Production!

Innovative design and custom options increase fresh air capacity by improving natural air flow, thereby reducing humidity, preventing illness and disease.

Clear-span dairy facilities up to 160 feet wide, manufactured to any length.

Cover-All™ is an economical option to conventional dairy barns.

POURED SOLID CONCRETE

STORAGE SYSTEM SPECIALISTS

START WITH THE BEST!

POURED CONCRETE WALLS

You get about 40% more concrete for your dollar with a poured, solid concrete basement as compared to a hollow core block basement

A poured solid concrete basement weighs about 50 lbs. more per cubic foot! Far denser. What's more, poured solid concrete walls are monolithic there are no joints!

This is why laboratory tests show poured, solid concrete basements have many times the flexural and compressive strength to withstand the side and down pressures caused by earth, wind, water and building loads and the material density to resist water penetration

Best of all, thanks to modern and efficient construction techniques, poured, solid concrete basements are competitively priced

Solid Concrete For:

- Manure Pit Walls
- Hog House Walls
- Barnyard Walls
- Chicken House Walls
- Retaining Walls
- House Foundation Walls
- Silage Pit Walls
- Cistern Walls
- Concrete Decks
- Concrete Pit Tops
