

NEW! New Holland TND/TNS Tractors 42 to 62 PTO hp

Customer driven design

TND/TNS tractors have the features customers say they need. These tractors outperform and outmaneuver all others in the three-cylinder class. Plus they're loaded with comfort and convenience usually found on much bigger tractors.

Exclusive SuperSteer™ FWD axle makes TNS tractors the most maneuverable all purpose tractors available.

8x8 or 16x16 Synhro Command™ transmissions feature synchronized gears and a synchronized, left hand mechanical shuttle. The 16x16 includes four speeds 1 mph or less.

8x8 or 16x16 Synhro Command transmissions with power shuttle offer clutchless, forward/reverse shuttling for superior operator convenience.

Exclusive Traction Management System (TNS tractors only) automatically engages FWD when and only when you need it.

Four wheel differential lock is electro-hydraulically engaged on TNS tractors for maximum power to ground performance.

Comfortable cab is suspended and pressurized, shielding the operator from vibration, noise and dirt. Heater and A/C, two doors, tilt/telescoping steering, front and rear washers and wipers, and a best-in-class lighting package are standard. Excellent visibility and an overall height as low as 85 1" lets you go places competitive cab tractors can't.

Boomer™ has tightest turnaround

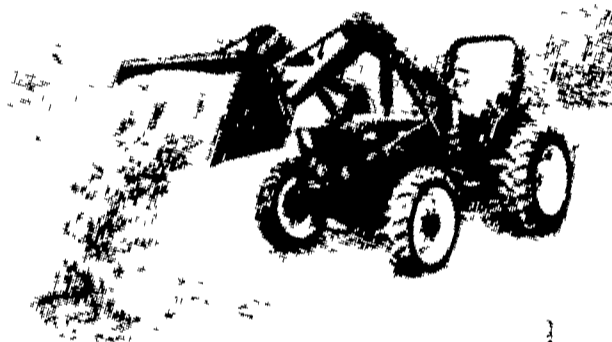

Cut the wheel on a Boomer compact tractor and BOOM. It turns on a dime, up to 50% less than other compacts.

- With SuperSteer™ enjoy greater maneuverability
 - Sensitrack™ clutch senses turns and is easy on turf
 - Innovative styling means high visibility and easy of operation
 - Comfort-Plus™ deck applies ergonomic design for greater operator comfort
- See Boomer now!

Shuttle back and forth with ease

The left-hand, column-mounted shuttle control on New Holland 40 to 62 PTO hp tractors with 8x8 and 16x8 transmissions provides convenient shifting of the best, fully-synchronized shuttle in this horsepower class. Shuttling is controlled with the left hand, leaving your right hand free to operate the loader.

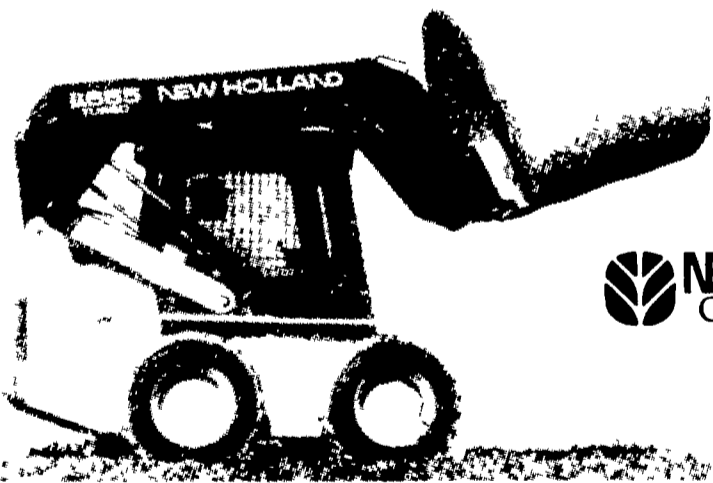

Excellent in the field - and on the farm

New Holland 70- to 90-PTO-hp tractors feature a 16x16 Pulse Command™ transmission with push-button power shifting within each of four speed groups. Speeds are evenly spaced 18% apart, with nine speeds in the usual two- to seven-mph working range. Plenty of gear overlap makes range shifting unnecessary most of the time. The shuttle lets you pull out from a dead stop or change direction without clutching. An optional, electro-hydraulically engaged creeper is also available.

Any job, any time, anywhere

Hard work demands productive, dependable equipment, like the New Holland Super Boom™ skid-steer loader. Super Boom has unbeatable stability and visibility, faster travel speeds, superior dump height and reach, greater bucket and lift capacity and more attachments than anyone. Stop in today and see what Super Boom can do for you.
