TOBACCO BLUE MOLD

CONTROL IT WITH ACROBAT[®]

M Z F U N G I C I D E

DIRECTIONS FOR USE IN FIELD GROWN TOBACCO

Directed Foliar Applications

Application Rates and Timing Chart To Control Blue Mold

Weeks Of Growth After Transplant	Rate Of ACROBAT MZ (Pounds of Product)	Water Output (Gallons/Acre)
Recently Transplanted to 3 weeks after transplanting	0.50	20
3-4 weeks after transplanting (Knee High)	1.0	40
4-5 weeks after transplanting (Waist High)	1.5	60

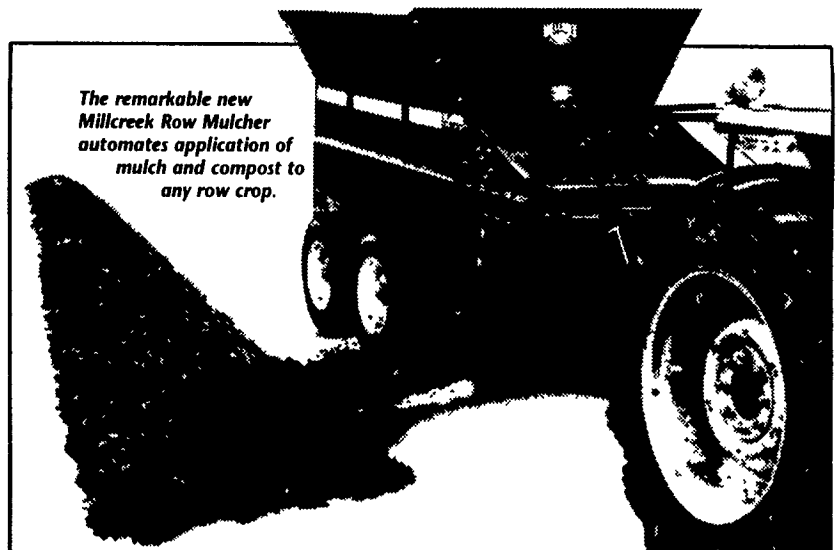

Note Above directions are for dilute sprays. If concentrate sprays are used, adjust rate and volumes proportionately, e g for mist blowers, use a 2X concentrate and 1/2 the spray volume

Begin applications when the **Blue Mold Advisory** states that **conditions favor development of blue mold**, and before the onset of disease infection. Continue applications on a 5-7 day spray schedule until weather conditions favoring infection and sporulation decrease. Discontinue sprays when and if the threat of blue mold subsides.

ACROBAT MZ can only be used in a **preventative** spray program to manage blue mold in tobacco. Total plant coverage is essential to achieve maximum disease control with ACROBAT MZ. ACROBAT MZ must be used in accordance with the label.

The remarkable new Millcreek Row Mulcher automates application of mulch and compost to any row crop.

The versatile Millcreek Row Mulcher makes different sized mulch beds as you need, from 18 to 48 wide from 1/2 to 10' deep. A mulching program can help you produce a healthier crop while reducing pesticide requirements.

Bird-in-Hand, PA 17505 717-656-3050

Apply compost and organic mulch to any row crop automatically

From tree fruit to vegetable beds, from bramble crops to vineyards, organic mulch and compost can reduce chemical input for weed suppression, retain soil moisture, and improve soil fertility by watering organic matter to sandy and clay soils

Now Millcreek eliminates the costly labor needed for organic mulch and compost application. The remarkable new Millcreek Row Mulcher works with all types of organic material, and even lets you adjust the depth and width of the mulch rows

Starting under \$5000, no other machine compares when it comes to versatility, and cost effectiveness. Rugged construction. Five sizes, from 3 4 to 13 cubic yard capacity. Custom designs. Call today for a free color brochure, or to discuss your specific needs
