

WHY BALERS FROM HOOBER ARE JUST BETTER

1. HOOBER SALES:

Hooper sells Case IH balers. Case IH has invested in solid engineering and design. Even the small balers have the superior inline design feature, so you can expect outstanding leaf content. Our unique double knotting feature ensures a tighter bale. The patented adjustable stuffer chamber ensures more uniformity from top to bottom. Uniform bales truck and store better. And every baler can be transported without leaving the seat.

2. HOOBER COMMITMENT:

Hooper invests many hours going over new balers before they are delivered, so that the baler is ready to perform at its best in your particular application. When it is delivered, a dedicated Hooper employee will start you in the field, so you learn how to get the most out of the technology at your fingertips. Did you get that service the last time you purchased a baler ??? . . . You did if it came from Hooper !!!

3. HOOBER ENHANCEMENTS:

Hooper offers an impressive array of enhancements that separates Hooper from any baler dealer in the East.

- A) Hooper will install a knotter blower to ensure your knotter remains dust free and continues to produce tight, uniform bales.
- B) Hooper can also install an optional automatic oiler system that will virtually eliminate wear on chains, bearings, and knotters, and save you up to an hour-and-a-half normally spent lubricating your baler.
- C) Hooper will also install advanced preservative applicators . . . with your choice of two preservatives. Get into the field earlier and generate high moisture and protein laden bales.

Simply put, a new baler from Hooper is, in fact, better than new.

4. HOOBER SERVICE:

Hooper has five hay and forage specialists who work on balers. With an old-fashioned attitude, they'll service balers quicker and better. Advanced Machinery Service is Hooper's commitment to keep up with technology. Hooper baler technicians never miss a chance to go to school. Each year, Hooper also holds an out of season baler clinic for customers to share service tips and the latest technology.
