

TIOGA

D & D Farms, Wellsboro
 Dave and Donna Cleveland live on the family farm located alone route 287 six miles south of Wellsboro in Tioga County. The farm came into the family in 1942. They farm 330 acres of corn, alfalfa, and oats to feed their Holstein dairy herd that averages 21,000 lbs. of milk. They have one daughter Brani who is 17 years old. They like farming because you are not always doing the same job every day and they like to live in the beautiful country near the mountains.

All across Northeastern U.S. and Canada, dairy producers are recognizing the benefits of **Nutri-Catalyst®**.

Maybe it's time you, too, get the facts.

Treat your entire herd

Nutri-Catalyst® Top-Dress

An all-natural direct-fed microbial designed to help increase dry matter intake, aid in fiber digestion, and complement any feeding program. Nutri-Catalyst helps sustain milk production, improve milk quality, and much more.

Or treat individual, challenged animals

Nutri-Catalyst® Capsules

Highly-concentrated levels of Nutri-Catalyst in gelatin capsules, this product is designed to benefit challenged animals, stimulate appetite and improve overall health so animals can quickly get back on feed.
