**WE DELIVER**

**Metal Roofs aren't Created Equal**

**Everlast II is better:**

- it is galvanized heavier, like old times.
- it is heat formed, less paint cracks.
- is cut while hot, prevents early edge rust.
- won't scratch as easy, paint is harder.
- won't bend or buckle as easy, stronger design.
- laps are tighter, and virtually invisible.
- nails/screws seal better, ribs fit tighter to head.
- zinc phosphate, not chromate under paint.
- still priced about the same or less.

**Everlast II**  
 is excellent for houses and barns.  
**Double dipped galvanized**  
 is proven best for animals.  
**Standing seam** is ideal for houses.
