Binkley & Hurst Bros. Inc. Has A Heavy Duty KNIGHT

One day in 1949, a friend told Stan Knight, "I wish someone would make a spreader that would not break down with frozen manure." That challenge to the founder of Knight Manufacturing led to the Knight heavy duty manure spreaders that were soon on the market. The common focus of Knight spreaders to this day is that they are simple and rugged and designed to give many years of service.

Binkley & Hurst Bros. Has One In Stock For You!

ProTwin Features at a Box Spreader Price

Knight Hammer Design Impeller Shreds Manure For Even Distribution of Nutrients for Easier Incorporation Into Your Soil.

Get the soil nutrients needed to grow your corn crop this year. If you have pen pack, sticky feed lot or slurry-type material that needs to be spread fast and spread evenly, you need the KNIGHT PRO-TWIN SLINGER. Name Your Size - From Little To Big!

New Case IH Grain Drills In Stock For Quick Delivery! The Goal: Uniform Seed Distribution

If you want precision seeding, you need a new Case IH 5300 Series Grain Drill from Binkley & Hurst Bros. No matter if you plant small grain or soybeans!

The Game Plan: Case IH 5300 Grain Drill
Designed for precision planting in solid or extra-narrow row patterns to maximize yields.

- Exclusive diagonal-lipped fluted-roll seed cups ensure uniform seed distribution.
- Close-coupled maneuverability.
- Large-capacity seed hopper to cover extra acres between refills.

A Special Feature For All Case IH Grain Drills

Fluted Roll Feed Cup Assemblies Save Seed and Save Time. A known fact that Case IH die-cast zinc alloy feed cups are superior to other competitive brands. Long life comes from oil-impregnated, molded sintered metal liners act as a positive bearing surface to surround and support the fluted roll.

Large throat clearance allows the handling of big seeds and prevents seed damage.

Fluted roll is precision-molded and won't freeze up during the idle periods.

Shut-off block is molded of steel and delivers consistent cup to cup seeding accuracy. Exclusive tapered metered edge at the bottom of the feed cup provides unexcelled seeding accuracy, even seed flow, and more uniform spacing.

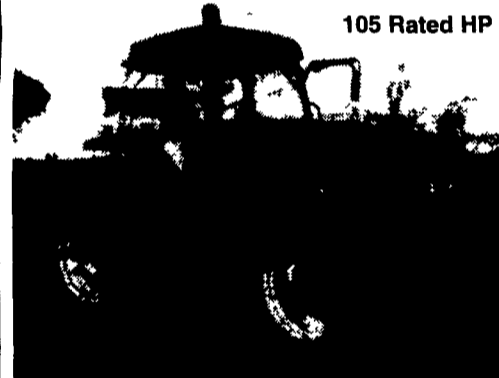

For replacement parts for your existing drill, buy Case IH quality from our Parts Dept. Now! Precision engineered to fit your grain drill exactly!

And you get more than a precision grain drill. You can count on us for genuine, value-priced parts, professional and reliable service support, and flexible financing.

For the best in grain drills, see Binkley & Hurst Bros. Inc. for sizes in stock.
