**"HI-MOISTURE SHELLED CORN"**

You know the advantages of hi-moisture shelled corn versus dry corn for animal feeding. So now consider the MANY ADVANTAGES of POURED CONCRETE to store and protect your valuable grain.

Our 6" thick concrete walls reflect 38% of light beams, resulting in 780 times more heat-resisting ability than steel, and 25 times more insulating power than steel.

"Our 6" thick walls have a very low leak potential compared to pre-lab silos of any kind, and a very low maintenance requirement."

**"PROTECT YOUR CORN FROM THE HEAT."**
