

SLURRYSTORE® STRUCTURES

The Slurrystore structure is the cornerstone of an engineered manure management system.

- **August 1974 - The Slurrystore System was introduced in three structure sizes, 25' x 14', 42' x 14' and 62' x 14'.**
- **Tank sizes now available from 20' dia. x 10' high to 204' dia. x 19' high.**
- **Tank volumes from 6,300 gal. to 4.6 million gal.**
- **Over 4,000 installations.**
- **Structures in use in North America, Europe and Asia.**
- **January 1999 - The Slurrystore standard warranty increased to 5 years.**

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of A.O. Smith Engineered Storage Products Co.
