**For more details contact
 Brent @ (800) 544-4574**

**ALUMINUM GRAIN BODIES
 & ALUMINUM REPAIRS by**

Rugged
 Strength

Dependable
 Performance

These ultra-light bodies are designed for strength through engineering, not strength with bulk. For example, a 16' grain body with tailgate and 48" sides weighs only 1490 lbs. complete. We'll build you any length or any side height up to 60".

Also available:

- Double swinging hay hauling tailgate
- Barn door type tailgate
- Slide out cattle chutes
- Diamond flooring
- Pull out panel tailgates
- Any size grain chute

UEBLER FEEDING MACHINES

**SPECIAL DISCOUNTS
 MONTH OF OCTOBER**
 On Units In Stock - Call For A Free Demo

MODEL 810 30 bu

MODEL 812 43 bu

Uebler has been manufacturing feeding machines for over 30 years. From our extensive experience we know exactly what you want in a feeding machine.

SILAGE/HAYLAGE

Uebler silage carts feature a forage box unloading design which provides even-feeding of materials into the jumbo 12" auger discharge. Easily unloads all types of feed including the toughest silage. Uebler silage carts come in two sizes. Model 810 holds 30 bushels and Model 812 holds 43 bushels. Both riding models feature easy turning automotive-type steering and a comfortable, adjustable chair. A convenient foot pedal or hand control engages the feed mechanism and an easy-acting hand control operates the hydrostatic transmission. Exclusive center pivot makes Uebler the most maneuverable riders available today. And Uebler's simple design and durable materials are backed up with a two year guarantee.

FORAGE BOX UNLOADING DESIGN

No need for costly variable speed unloading mechanism. Spiral beater prevents bridging - provides even-feeding of materials into the auger discharge. Easily unloads all types of feed including the toughest haylage.

MANEUVERABLE

Center pivot is designed into each Uebler machine by positioning the pivot wheels as close to the center of the machine as possible. This minimizes the turning radius giving Uebler the best possible combination of maneuverability and carrying capacity available anywhere.
