Wet & matted hay & stoney fields?? VICON cuts less than an inch from ground & floats over stones, making hay mowing a breeze!

DISC MOWER CONDITIONERS

Free Float Suspension System

The overhead frame design with the mower suspended by links and coil springs allows cutting close to the ground. The mower floats over uneven ground contours without damaging the stubble or unsettling the machine. When encountering uneven field conditions, the mower unit lifts and swings back at the same time, reducing impact on the mowerbar.

2 yr. Warranty on Cutter Bar

CUTTING CLOSE TO THE GROUND WITH THE VICON'S FREE FLAT SUSPENSION SYSTEM

Vicon finger or roller type trailed mower conditioners combine a superb cut with an excellent conditioning performance. The full swivel hitch allows mowing and conditioning non-stop around the tightest corners and free float suspension system guarantees perfectly matched high capacity.

GLENN BEIDLER
