#### Northeast Broiler/Fryer

Parts I and II  
Atlanta, Georgia  
December 1, 1999

Trucklot buying activity was very sluggish despite widespread discounting. Offerings of breast items were readily available and the balance was at least adequate. Retail and distributive movement was slow and only slight optimism was noted for the beginning of the month. The market tone was barely steady to weak for breast items and no better than steady for the remainder of parts.
