Regulatory approval of grain harvested from Roundup Ready corn is pending in certain export markets and may not be received before the end of 2000. As a result, the grower may be restricted from introducing the grain into channels of trade where the potential for export to those markets exists. In such cases, the grower must channel such grain for feeding on-farm use in domestic feedlots or other uses in domestic markets only. Growers should refer to Monsanto's Technology Use Guide for information on crop stewardship to avoid the potential movement of pollen to neighboring cornfields.
