

# You ask You answer

This column is for readers who have questions but don't know who to ask for answers.

"You Ask—You Answer" is for non-cooking questions. When a reader sends in a question, it will be printed in the paper. Readers who know the answer are asked to respond by mailing the answer, which will then be printed in the paper.

**ANSWER** — Spence Haines, North Wales, is a 94-year-old retired farmer but still active. He successfully used Afrin for more than a year to relieve nighttime nasal stuffiness then became resistant. He wants to break the addiction and asks if readers know of any sensible remedy that relieves nasal congestion. Thanks to Catherine, Lancaster, who writes that her chiropractor instructed her to use a light film of mineral ice (sold in drugstores and by chiropractors) on her face to alleviate sinus congestion. Make an arc over each eyebrow, a smile under each cheekbone, and a minute dot on either side of the nose at eye level. Be careful not to get any in the eye. The arcs follow the sinus cavities and the nose dots encourage watering through tear ducts, which are a natural drain for sinuses. This method works wonders for any sinus congestion Catherine gets, including colds.

The other alternative Catherine recommends are Breathe Right strips, which she found works marvels for cold and nasal congestion for herself and her children.
