Today's Most Advanced Disc Mower Conditioner

GEHL

**Model 2345
9 Foot Cut In Stock**

**And 10 Foot
Model DC2365**

Long hood for less wind turbulence for cleaner cutting in thin crop stands.

A Gehl disc mower conditioner delivers exceptional cutting and conditioning, even in your most difficult crops and conditions.

Rugged high-speed cutting discs, spinning at 3,000 rpm, easily slice through down and tangled crops or dense wet undergrowth to deliver a clean cut.

The cut crop is delivered to Gehl's specially designed intermeshing rubber conditioning rolls for thorough, yet gentle crop conditioning. They'll condition your crop for fast drying.

ONLY FROM GEHL
The gear driven cutterbar (outlined in white) is protected. Gehl shields the cutterbar from rocks or other field obstructions with full-width skid shoes.

Easily replaceable disc drive assemblies. Drive stations can be removed individually for quick servicing. Bearings are sealed in grease. The patented Protectadisc™ system protects the cutterbar gear train from damage in the event of disc contact with major field obstacles.

Choose A Quality Gehl Machine From Binkley & Hurst Bros. Today!
Model 2412 Disc Mower Conditioner

**The New Swing
Frame Gehl 2412
Disc Mower Is
Ready For

Your Best Choice!**
This Is A Good
Time To Order A
Kernel Crushing
Forage Harvester
From Binkley &
Hurst Bros. Inc.

We are introducing and now taking orders for the new medium size Gehl 1075 Forage Harvester with high speed crop processing roller mill that can be opened up for haylage without removal of unit.

The new medium sized Gehl Model CB 1075 is here with a easy-in, easy-out kernel processor. Lots of good features to make chopping enjoyable with the end result you are looking for - higher quality more digestible feed.

Benefits of processing

The benefits of processed corn silage can easily outweigh the investment. Reports from dairy farmers who have already used a prototype model report increased milk production of two to four pounds per cow per day. These results are confirmed by a recent Washington State University study that shows average responses of two to three pounds.

confirmed by a recent Washington State University study that shows average responses of two to three pounds.
