Attention Dairy, Swine & Poultry Producers!
New Products Now Available...
With the addition of our new soybean processing facility, we now offer
these products to meet your nutritional needs. Manufacturing these
products ourselves allows us to utilize locally grown soybeans and
support our local agricultural community!

GOLDEN PRO 46 XP
This natural, mechanically extruded and expelled soybean
product is experiencing great acceptance with local dairymen. A
course golden colored meal with a 6% fat content, Golden Pro 46 XP
is extremely palatable. Golden Pro 46 XP is a natural way to
bring the value of high by-pass protein into diets that require a
lower fat level.

GOLDEN MEAL 40
An 18 percent fat content along with a 40 percent crude protein
makes this mechanically extruded meal product a valuable compo-
nent in a variety of rations. Full fat content gives you a high level
of digestible energy, while high temperature extruding ruptures
the oil cells for better nutritional absorbtions.

CRUDE SOYBEAN OIL
A product of Keystone's expelling process, this oil can be used in a wide
variety of on farm applications. A natural alternative to animal fats, this
oil provides needed energy in various rations.

To make these products available, and to help you utilize
your home raised soybeans
Keystone Mills announces its
Soybean Exchange Program
As manufacturers and distributors of Golden Pro 46 XP and Golden Meal 40,
we are anxious for you to try our products. We are offering a soybean exchange
program featuring these quality nutritional products.
