## Agritourism Meeting Scheduled

ELLCOTT CITY, Md.—If you want to add to your farm income, agritourism may be your answer. Pick-your-own fruit, a corn maze, fee fishing, or a bed and breakfast can help you sell the farm experience without selling the farm itself. Come to the day-long "Agritourism: A Farm Alternative" meeting on March 4 in West Friendship, Md. to learn strategies for success.

The meeting will be held at Nixon's Farm, a Howard County landmark known for its change from production agriculture to agritourism. Learn the "how-to's" of agritourism from successful farmers, who will also share potential pitfalls and helpful hints. Local experts will help you choose, design, and initiate the agritourism option that is right for your family farm.

Conference registration is \$15 per person and includes a continental breakfast and lunch. Pre-registration by February 25 is required. Contact Carolyn Kulp at the Howard County Extension office at 410-313-2707 for registration materials.

# WE'VE ALWAYS BEEN GOOD.

NOW

WE'RE  
EVEN  
BETTER.

# REALLY GOOD

Given Mueller's reputation, when it comes to dairy production, our customers demand quality in their cooling and storage vessels. They know Mueller has always been the company to set this standard worldwide.

Dependable and durable, our milk coolers will provide you with years of trouble-free performance as well as low operating cost, precise temperature control and a wide range of standard features.

## "BETTER"

to the employees and engineers at Mueller, means constantly improving our already great products. We have added convenience to our tank washer system by attaching the motor to the side of each milk cooler smaller than 3,000 gallons. At the same time, we have added quality by installing the most effective interior washing device in the industry. Mueller's tank washing spray dish is an innovative, one-of-a-kind design which more evenly distributes the cleaning solution throughout the tank's interior. It prevents clogging and offers maintenance-free cleaning. This high-performance process will give you extra clean tanks.

## BEST
