

KramerAllrad

Manoeuvrability and Stability

COMPACT WHEEL LOADERS

- 4 Wheel Drive
- 4 Wheel Steer

Confined work areas is where this machine feels at ease. The KramerAllrad 320 will finish any work in no time at all thanks to its surprising manoeuvrability and versatility.

Add exceptional comfort to the outstanding performance of the KramerAllrad 320. Productivity of the driver is enhanced by the excellent ergonomic design of the cab

- Thanks to the hydraulic quickhitch facility the KramerAllrad 320 is a real multipurpose machine - implements are changed within seconds without leaving the operator seat
- Roof opens over the entire width for the efficient ventilation of the cab
- Large windows ensure excellent all around visibility
- Compact design and large steering angles of 2 x 45° make for the amazing manoeuvrability of the KramerAllrad 320

The entire front loader is of a totally new design and offers high breakout forces and superb tilt-back and dump-out angles. Minimum effort is required to control the joystick which moves the front loader with utmost precision.

In conjunction with reliability and serviceability, this offers maximum productivity.

- Tinted glass prevents the cab from heating up through the large windows
- The rounded rear area is not just for good looks, it also reduces the blind spot to a minimum
- The two 100% powershift differential locks ensure smooth work even in the most difficult terrain
- An optimal tilt-back angle and an ideal bucket shape make for fully loaded buckets and less work cycles

We Ship Parts U.P.S.

The Reel Auggie Design provides a fluffy, more palatable ration that promotes feed consumption. When your cows consume more high quality feed, they'll produce more milk.

MORE MILK IN THE TANK, THAT'S THE BOTTOM LINE!
To see results, ask for a Reel demonstration from your local Knight dealer today.
