HOT HOUSE
Far Infrared Rays (FIR) Health Builder
 Within the magnetic spectrum, while some rays, such as light, can be seen by the unaided human eye, most are totally invisible to us. Far Infrared Rays (FIR) are well beyond the ability of the naked eye to see. FIR is capable of penetrating deep into the human body. It can gently and delightfully elevate the body's temperature. When it does so, it helps to expand capillaries which stimulates blood circulation. This increases the body's energy reserve, and accelerates the metabolic exchange between blood and body tissue. That's not all! FIR can actually increase the body tissue's regenerative ability. It also reduces abnormalities in nervous system and helps the autonomous system function properly.
 • Electronically Controlled & Safe

The Chi Machine
The Sun Harmony Aerobic Exerciser
Does your body get the oxygen it needs?
 (Adapted from a quiz by Dr. Eigi Noguchi)
 Check all the boxes which apply to you -
 I wake up tired, even after eight hours of sleep
 I sleep restlessly, waking up frequently
 I suffer from chronic fatigue
 I have poor physical endurance
 I tend to be moody and irritable
 I am susceptible to colds and flu
 I suffer from allergies
 I frequently feel tense and on edge
 I am frequently constipated
 I have frequent pain in my shoulder and/or back
 I have weight problems
 I crave sweets, alcohol or soda
 If you checked more than three boxes, your body might not be assimilating sufficient oxygen.
 Please consult your physician. You may wish to have your blood oxygen levels tested before and after you begin to use the Chi Machine.
 "My research has convinced me that lack of oxygen is the root of most or perhaps even all disease."
 - Dr. Shizuo Inoue
