

...a Boom Sprayer

for multi-crop produce farmer that is affordable and will do the job from sweet corn to melon crops.

With features like...

- 24 ft one-side boom that allows for 50 ft coverage between drive rows.
- Easy boom height adjustment from 2 ft to 7 1/2 ft. for sweet corn
- · Hydraulic leveling on the go allows uniform boom height from the crop
- 280 PSI, 28 GPM 3 diaphragm pump with power shaft for quick hookup
- Adjustable wheel spacing and tongue height
- NEW A-spring loaded hydraulic shock to control boom bounce.

Available with 300 or 400 Gallon Tanks

With the high cost of chemicals, the right sprayer is needed Order Early - Supply Limited

Binkley & Hurst Bros. Inc **Offers This Low Cost Harrow**

Call Joe at 301-834-6060

growth, improve moisture penetration. Breaks up manure to speed decomposition, reduce parasites. Works in seeds after reseeding. Maintains rings and tracks 4 to 42 ft widths Adjustable penetration. Low maintenance

Increase and lots more!

tines give better coverage at

much higher speeds. Adjusts without tools to provide the right penetration for a big variety of jobs!

PASTURES: Increases quality and quantity of feed from pastures Aerates to stimulate growth and improve moisture penetration. Scatters droppings, reducing parasites. Prepares soil for overseeding without disturbing existing growth Works in seed and fertilizer Many owners report pasture yield increases of 15%

HERBICIDE INCORPORATION: Independent research using black light photography proves the Fuerst Harrow behind your disk or cultivator gives you "near perfect" incorporation in one pass - better than implements costing several times more! Shreds trash as it prepares & levels seedbeds.

BROADCASTING SMALL GRAINS AND GRASSES: University of Illinois found overseeding by broadcasting followed by a Fuerst farrow a superior combination, out-performing equipment costing more than 10 times as much. Pulled behind the broadcaster, it covers seed to desired depth in one time-saving operation.

SHREDS STALKS: Shreds and spreads stalks in spring ahead of no-till and ridge-till planting.

4 to 42 ft widths Flexes to cover every inch at 6-8 mph. No maintenance. Easy to use and store. Insist on the original "Spreading Action" 4
