The Mixer with More Muscle!

Mix square bales of hay faster with new features.

Model 4000 MIXER

- ▲ **New tub design plus full-length breaker bar** improves mixing with less power so you can feed more hay. A 3/8-inch bottom pan adds extra service life. Walls are strong and tolerances precise for stronger side walls. You get more sturdiness and durability in a new Model 4000 Mixer. New design of transition area in lower auger improves feed flow and reduces torque.
- ▲ **New design of discharge door frame** allows a more-complete mix of ration. Choose from belt or auger discharges. Choose various discharge lengths. Increase operator convenience and reduce feeding time with optional hydraulic height control of discharge.
- ▲ **Improved drive train** provides reliable performance. A shear bolt helps protect the planetary and lower-auger roller chain and sprockets.

Struck-level capacities of 205, 305 and 380 cubic feet. Optional side extensions provide struck-level capacities of 232, 343 and 428 cubic feet.

For really tough hay, add knives made from 1/4-inch Quadra-Shark™ steel. The through-hardened knives feature scalloped cutting edges for reduced torque.

Quadra Shark™ is a trademark of Patz Sales, Inc.

Choose stationary, trailer mounted or truck-mounted models.
