Gehl 1410

**CLOSED GOOD FRIDAY
APRIL 21, 2000**

410 Bushel Rating with Hyd. Endgate Built to Last with a
12-Year Guarantee - See Binkley & Hurst Soon!

Why is Scavenger the Best?

One big reason is the unique new round-core auger. This auger features segmented paddles grouped in a spiral pattern. This flighting configuration delivers more material to the discharge expeller in less time for faster unloading. The paddles are precisely positioned to deliver more uniform feeding to the discharge expeller. This exceptional design breaks up and blends all types of manure.

The auger is hydraulically powered both up and down (unlike competitive units that use springs, gravity or fixed augers). This design provides more control to chop through bridged material or power down through heavy loads.

Outstanding Application Control.

Gehl's proven Varifo™ discharge system has been made even better. It's 33 percent wider on the Model 1315. On all new models the expeller assembly has been significantly strengthened. New square-tooth expeller paddles spread smoothly and evenly. You choose the rate you want, from heavy spring-time spreading to light top-dressing. With Scavenger you have complete control right at your fingertips.

Model 1309 Single Axle
1005 Gallon, 134 cu. ft.

Model 1315 Tandem Axle
1818 Gallon, 243 cu. ft. with Rubber Rails

**Now Is The Time To See
Binkley & Hurst Bros. Inc.
For A Quality Spreader
Priced To Sell!**

Heavy-duty round-core segmented auger breaks up and blends manure with less chance of wrapping. The specially-formed auger paddles are set at the precise pitch to maintain proper material flow to the discharge expeller.

Highway light system is standard for added safety during road travel. The light system connects to the tractor's 7-pin receptacle.
