**POULTRY GUARD**  
LITTER AMENDMENT  
New Poultry Guard™ Litter Amendment is a unique activated clay that delivers consistent ammonia control without the handling inconvenience associated with other poultry litter treatments  
Unlike these other treatments, Poultry Guard Litter Amendment is easy and convenient to apply and needs no incorporation or activation. Fewer application variables mean more consistent performance. In addition, Poultry Guard can be applied up to five days before bird set, whenever it's convenient for the grower.  
**Using Poultry Guard Litter Amendment Is As Simple As...**  
**A**pply: Simply spread over poultry litter.  
**B**ird Set: Poultry Guard can be applied when it's most convenient, up to five days before bird set.  
**C**ontrol Ammonia: Poultry Guard will deliver immediate and long-term ammonia control and give birds a healthier growing environment.  
You be the judge! We are confident this litter amendment will improve your poultry and your profits.
