

# LUCK//NOW Mixer Feeders

The Line of LUCK//NOW Mixer Feeders Just Got Bigger and Better

Since 1979 LUCK//NOW Mixer Feeders have been recognized as one of the most dependable and strongest built mixers in the field.

Reliable "C & S" Chain and Socket models from 200 cu. ft. to 375 cu. ft. are the foundation for the well earned reputation.

To enhance its existing line of Mixer Feeders, LUCK//NOW introduced the "P" Series of Mixer Feeders with six models ranging in size from the Model 300 with a mixing capacity of 310 cubic ft., to the Model 750 with a mixing capacity of 900 cubic ft.

The large diameter augers in all the "P" Series Mixer Feeders are capable

of giving the mix required, from rations with well cured, long stemmed legume-type hay, to mixes with green grass, and mixes with silage and commodities. Better milk production, better weight gains and greatly improved animal health are just some of the results of a finely-tuned feed ration.

### Standard Features

- Four auger mixing system;
- Large diameter augers with 5/8" and 3/8" thick flighting;
- Large diameter heavy wall auger tubes for extra strength to do the tough mixing jobs
- Bottom shear angle for the harder-to-mix rations;
- Heavy Duty SFCW flanged block bearings on the drive end of all augers, equipped with special seals and covers, provide for years of trouble-free operation;
- External grease banks;
- Rear oil bath drive compartment lets all chains and sprockets run in oil;
- Planetary gear reduction to add simplicity and reduce input H.P. requirements;
- All sprockets on the main drive system equipped with S-taper hubs for ease of maintenance;
- Rear bumper for added protection against damage;
- All Mixer Feeders come complete with either of several makes of basic read up, read down electronic scale systems

### Options

- Choice of various different electronic scale indicators,
- Remote indicator and remote zeroing capabilities
- Hydraulic raise and lower discharge chute;
- Special discharge lengths;
- Hydraulic flap on discharge chute;
- Manual flap on discharge chute;
- Magnet in discharge flap;
- Diverter valve for tractor with only one set of remotes.
- Built-in knife kits
- Stainless steel liners

All LUCK//NOW mixers may be ordered as stationary units or truck mounted units.

### Discharge Chute

Precise feed delivery — a discharge (shown at the left) that can unload at the rate you would like. The hydraulically driven orbit motor driving the twin 12" diameter augers can unload as fast or as slow as you require. Large clean-out openings allow ease of clean-

ing and draining in the winter months to avoid freezing.

Greasable bearings are set away from the back of the discharge for ease of replacement and longer life.

The discharge is also available with optional hydraulic raise and lower.

Make Your Best Deal Now On A Luck//Now Mixer-Feeder and the Advantage of the **E-Z FLEX FINANCING** (at Participating Dealers)

0% - 12 Month    5.25% - 24 Month    7.25% - 36 Month    8% - 48 Month    8.5% - 60 Month

OR No Payment Till November 15, 2000  
Great Mixers, Great Rates, Great Savings!!

Effective now through May 31, 2000 (with mixer delivery by June 30, 2000). Cummings & Bricker is offering great savings and great finance rates through the E-Z FLEX Financing program.

## LUCK//NOW HAYMASTER 500

As with all LUCK//NOW products, the HAYMASTER 500 is built for durability and performance.

The HAYMASTER processes whole round bales, whole large and small square bales, wet or dry, and mixes other commodities producing an ideal TOTAL MIX RATION.

The planetary drive ensures smooth operation with minimal horsepower requirement.

Carbide knives with tungsten edges work in conjunction with adjustable ledger bars to vary chop length for your requirements.

Low loading height eliminates the need for extra high front-end loaders.
