8500 SERIES SMALL SQUARE BALER

HOLD ON TO MORE HIGH-PROTEIN LEAVES WITH THE CENTER-LINE DESIGN

With a Case IH 8500 Series Small Square Baler, your hay has a straight shot through the baler. From pickup to bale chute, all Case IH balers feature the field-proven center-line design.

Other baler designs force hay to change directions or turn corners, which can cause leaves to shake off or tear loose, taking your feed value along with them. Fortunately, the center-line design on Case IH balers helps your hay hang on to more of its protein rich leaves, giving you bales with more nutrition.

Here's how your hay becomes a solid bale built to stack

like a brick: Hay enters the wide, low-profile pickup and meets plenty of crop-hungry tines. Then centering augers gently feed it to the prepacker chamber. Hay is swept in by a stuffer fork and compressed into a uniform flake.

Next the preformed bale flake enters the bale chamber just ahead of the plunger. Each charge of the heavy-duty plunger makes one flake until a square-cornered bale is built.

The result? Bales of consistent density and shape that pack a powerful nutritional payload. And you get rock-solid bales built for better stacking, storage and transport.

SMALL 14X18 BALES...BIG CASE IH QUALITY

From the smallest 8520 to the medium-duty 8530 and the deluxe 8545, Case IH offers you three choices in the 14x18 in. (36x46 cm) bale category.

All models boast the advantages of a center-line design. It's a difference you'll quickly see in consistent bale quality as you get bale after bale of solid, stackable, tied-to-last bales.

These three models of balers get the job done right with wide, low-profile pickups, high-speed, short-stroke

plungers, constant-velocity drivelines, and reliable knotters and twisters. A big-capacity twine box boosts productivity, while a standard bale counter tracks the day's progress.

Optional features include hydraulic density control, high-flotation tires, hydraulic pickup lift, wire tie version of the 8545, light kit for night baling, quarter-turn bale chute, the 8511 Bale Thrower, and a bale chute extension with wagon hitch. See your Case IH dealer for full details.

Purchase Your Next Horse Drawn Square Baler From Binkley & Hurst Bros. Inc.

In-Line Eliminates Side Draft, Easier To Pull, In-Line Means Less Crop Movement Which Packs In More Leaves and Can Put More Milk In Your Tank.

CASE IH MAXIMUM PAYLOAD. MINIMUM EFFORT.

ALL-NEW 8585 LARGE SQUARE BALER

CASE IH

FIND OUT HOW TO MAKE HAY PAY WITH THE BEST DEALS ON THE BEST EQUIPMENT!

Take advantage of the transportation and handling advantages of the new 8585 Large Square Baler from Case IH. For maximum payload with minimum loading effort, the new 3x4 foot bale size takes fewer bales to fill a flatbed, so you save time and keep trucks coming back for more hay.

- Industry-leading 30-bale twine capacity means nonstop baling productivity
- Six heavy-duty double knotters provide secure ties bale after bale
- Hydraulic density control, high-flotation tires, and adjustable ejector are standard

- Automatic central lube system greases critical points to reduce downtime
- Heavy-duty pick-up with dual cam tracks means greater durability for handling wide and heavy windrows

Before you load another flatbed, calculate the handling and transportation savings of an all new 8585 Large Square Baler.

Binkley & Hurst Bros. (your dealer) is Ready To Serve You!

Make Your Purchase Today

If You're Looking For A Small Round Baler For A Small Price, See Binkley & Hurst Bros Today!

If You're in the Market For a Round Baler, Make Sure You Look At the Case IH 8420

Many standard features you might pay extra for with other machines - features like dual tension arms, side-mounted gathering wheels, centrally located drive system, bale counter, mechanical bale-full alert and a "tailgate latched" indicator.

Make up to a 550-pound bale. Requires just 30 PTO horsepower.

And, big value. You can probably buy a new 8420 for what other used models would cost you.

And, you get more than an economical baler. We are committed to providing genuine, value-priced Case IH parts, professional and reliable service, and flexible financing. Open Throat Design to Eliminate Plugging. Variable Height Bale from Only 30" Up To 54" for Manual Handling in Small Barns and 39" Width Works in all Types of Crop Residue including Corn Fodder.

Attention: Owners of Two or More Round Balers!

Simplify Your Operation! Simplify Your Life!

The features include:

- Wide, low-profile pickup - rake two windrows together
- Charge chamber preforms flakes - better leaf retention
- Double knotter system virtually eliminates twine breakage
- Optional ejector and roller chute to remove silage bales
- Optional 8576 accumulator groups up to four bales in strategic locations

Fits the way you farm.

- Bale dry or silage hay with no changeovers
 - No stopping to tie and eject bales
 - One 8575 can replace two 5' x 6' round balers
 - Operate with only one tractor and one man
 - Higher hay quality means more profits
- Lower your overall operating costs while improving your efficiency and hay quality. We are committed to providing you with professional, reliable parts and service support, and flexible financing.
