w/Optional Counterweight

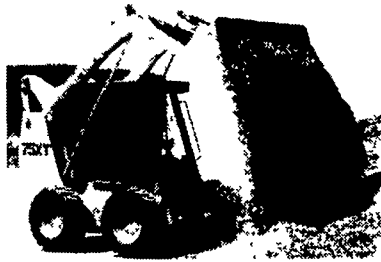

New 75XT Lift and Carry Skid Steer

The 75XT, with its extremely stable and maneuverable wheel base and power reach lift design is the perfect machine for virtually any lift and carry application. The 75XT features 2200 pounds of operating load for handling heavy loads in agricultural landscaping and general construction applications. Large square bales and silage bales are easily handled by the 75XT. With 10% greater wheel base than the 1845C, the 75XT is extremely stable and comfortable to operate. Both hand control and foot control options are available to match operator preference. The field proven, reliable Case 4-390 engine rated at 60 Horsepower,

provides low cost of operation. Coupler attachment specifications are the same as the 1845C, so buckets, brooms, augers, bale spikes, auto rakes, snow blades, and scrap grapples can be used. Other attachments, such as pallet forks, must be matched to the increased lift capacity of the 75XT.

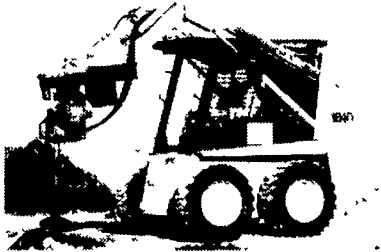

The 75XT is a perfect skid steer for a wide variety of applications in the rapidly expanding lift and carry market. It sets new standards in power and lift capacity with added value and more performance for the investment.

(The loader with more reach).

Backhoes

DX100XR for the 1840 Long Boom and Dipper for Extra Reach. Transforms skid steer into a mini-excavator, several are available. D125 for the 1845C. This beefy Case backhoe has the capacity for heavy-duty digging.

Auger/Post Hole Diggers

Dig vertical holes, even on slopes. High performance post hole diggers with up to 4 year warranties. Also economy models available.

Utility/Snow Blade

Hydraulically adjusts for light utility dozing, backfilling and removing snow.

Trencher

Trencher mounts to loader arms and permits easy operator entry and exit. Choice of booms and chains. Use with auxiliary of high-flow hydraulics. A side-shift version is available.
