## EXCLUSIVE SHEARBAR PROTECTION COLLISION INSURANCE

Shearhubs, an exclusive John Deere feature, are standard equipment on all rotary MoCo's. Should the cutterbar receive a severe impact - from a rock, tree stump, or worse - the hub sears, protecting the inner gears. A shearhub costs about \$40 to replace, and can be carried in the field. Compare that to the

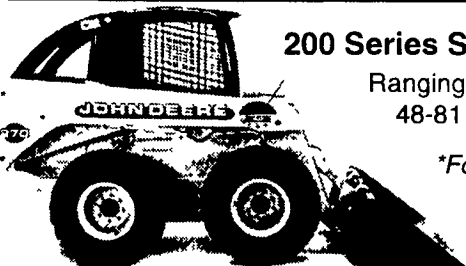

cost of repairing or replacing a complete cutterbar assembly on another machine. Then visit us for details. We can help make sure you're covered.

- 1-JD 720 9'9" Cutting Width
- 2-JD 925 9'9" Cutting Width
- 3-JD 935 11'6" Cutting Width
- 1-JD 945 13' Cutting Width

## NOBODY DOES HAY BETTER
